WORK SAMPLE PORTFOLIO

Annotated work sample portfolios are provided to support implementation of the Foundation – Year 10 Australian Curriculum.

Each portfolio is an example of evidence of student learning in relation to the achievement standard. Three portfolios are available for each achievement standard, illustrating satisfactory, above satisfactory and below satisfactory student achievement. The set of portfolios assists teachers to make on-balance judgements about the quality of their students’ achievement.

Each portfolio comprises a collection of students’ work drawn from a range of assessment tasks. There is no pre-determined number of student work samples in a portfolio, nor are they sequenced in any particular order. Each work sample in the portfolio may vary in terms of how much student time was involved in undertaking the task or the degree of support provided by the teacher. The portfolios comprise authentic samples of student work and may contain errors such as spelling mistakes and other inaccuracies. Opinions expressed in student work are those of the student.

The portfolios have been selected, annotated and reviewed by classroom teachers and other curriculum experts. The portfolios will be reviewed over time.

ACARA acknowledges the contribution of Australian teachers in the development of these work sample portfolios.

Year 1 English achievement standard

The parts of the achievement standard targeted in the assessment task are highlighted.

**Receptive modes (listening, reading and viewing)**

*By the end of Year 1, students understand the different purposes of texts. They make connections to personal experience when explaining characters and main events in short texts. They identify the language features, images and vocabulary used to describe characters and events.*

Students read aloud, with developing fluency and intonation, short texts with some unfamiliar vocabulary, simple and compound sentences and supportive images. When reading, they use knowledge of sounds and letters, high frequency words, sentence boundary punctuation and directionality to make meaning. They recall key ideas and recognise literal and implied meaning in texts. They listen to others when taking part in conversations, using appropriate language features. They listen for and reproduce letter patterns and letter clusters.

**Productive modes (speaking, writing and creating)**

*Students understand how characters in texts are developed and give reasons for personal preferences. They create texts that show understanding of the connection between writing, speech and images.*

*They create short texts for a small range of purposes. They interact in pair, group and class discussions, taking turns when responding. They make short presentations of a few connected sentences on familiar and learned topics. When writing, students provide details about ideas or events. They accurately spell words with regular spelling patterns and use capital letters and full stops. They correctly form all upper- and lower-case letters.*

**Summary of task**

Students studied the texts of Eric Carle, with a focus on his illustrations, and viewed Eric Carle’s website to watch how he created his illustrations. They experimented with creating their own illustrations using a similar technique. Students were asked to respond to written questions about their artwork choices. The questions were read and discussed beforehand, and students completed a first draft before writing their answers on the worksheet.

**Summary of task**

In class, students listened to a reading of Tiddalik, an Aboriginal Dreaming story. The students were asked to create a story map detailing the main events of the story they had listened to and read. They were asked to structure and sequence the story map using illustrations and writing. The students worked against a class-generated set of criteria and they were encouraged to check their spelling by using a ‘have-a-go-pad’– a rough-work notepad. The students completed this activity over two lessons.

After completing their story maps, the students then presented an oral retelling of the text. During the oral presentation, the students could refer to their story map but were encouraged to not re-read the information on the story map.
