

Attachment 6: Main countries of birth, for Australia and by state/territory

This attachment provides the tick-box options for 'Country of birth' for Australia and all states/territories. The options were derived using 2006 ABS Census data for 'Students 5–19 years of age'.

Some schools or school systems may wish to tailor the tick-box options for 'Country of birth' Question Option One to the main countries of birth for their state/territory. (Refer to 'Country of birth' data element, question module attribute, in the technical specifications for additional information.)

The lists of main countries of birth may also be used in drop down/pick lists to speed up office coding of 'other' responses to the birthplace questions.

Alternatively schools or school systems may wish to tailor the tick-box options for 'Country of birth' Question Option One to another list of main countries of birth. **Regardless of the list of countries used, the question format must not be changed.**

Main countries of birth, for Australia and by state/territory

The lists in this attachment are derived from the 2006 Census of Population and Housing. School systems and schools which collected data using lists provided in earlier editions of the manual (based on 2001 Census data) are not required to update enrolment data to reflect the current lists but may choose to do so.
