This document provides an overview of the Australian Curriculum, Assessment and Reporting Authority’s (ACARA) policy and guidelines for managing data access requests. It includes:

- required steps for submitting a data request application;
- the review and assessment process taken by ACARA;
- formalisation of the data access agreement;
- data preparation, delivery and utilisation of data;
- Data Request Application; and
- Draft Data Access Agreement Templates.
1. Third party data request workflow

**Submission of Data Request**

- Applicant must (i) read ACARA’s Data Access Protocols 2012 and (ii) should review these Guidelines and the Draft Agreement Template, and (iii) check availability of data items/variables and terminology used on the My School website and ACARA’s website.
- If the data is needed and the request is consistent with ACARA’s requirements, then
  - Applicant to complete and submit the Data Request Application (DRA) through datarequest@acara.edu.au
  - Has the DRA been completed correctly?
    - ACARA emails confirmation of receipt of DRA
    - No? Applicant will be advised to resubmit application
      - Applicants who do not resubmit their application within 2 weeks will receive email confirmation of assumed withdrawal

**Assessment & Determination of Data Request**

- All applications are submitted to the ACARA Data Request Panel for assessment
- Formal Assessment & Determination by (i) ACARA Data Request Panel (for published data) or (ii) ACARA Research and Data Committee (for unpublished data)
- Pending (additional information requested from applicants)
  - Email sent to unsuccessful applicants notifying them of the outcome
  - Have the applicants provided requested additional information (within 2 weeks?)
- Successful Applications

**Data Preparation and Delivery**

- Email sent to successful applicants notifying them of the outcome, along with an MoU/Deed
- Applicants sign and return MoU/Deed to ACARA
- ACARA prepares the requested data set
- ACARA provides applicant with FTP account details for data collection
2. Before completing a data request application

2.1. All potential applicants must read the *Data Access Protocols 2012*.

2.2. If the applicants are not familiar with the availability of and names of data items/variables used by ACARA, Australian schools and education authorities, they should refer to the *My School* website and other sources such as the Student Reports, National Reports, NAPLAN Results published on the ACARA website [http://www.nap.edu.au/results-and-reports/test-results.html](http://www.nap.edu.au/results-and-reports/test-results.html)

2.3. The assessment of data request applications and the preparation/release of the approved data request is subject to ACARA's available resources and the level of requests being dealt with.

2.4. All applications, regardless of scope, must be assessed by either the ACARA Data Request Panel or the ACARA Research and Data Committee. The Panel meets monthly and the Committee meets 3-4 times a year.

2.5. An approved data request will not be prepared until a formal Agreement has been signed by both ACARA and the organisation listed in the approved application.

3. Provision for data service

There are three levels of service:

3.1. **Level 1**

Applicants with whom ACARA already has an existing data exchange relationship via a standing MOU, and as specified under paragraphs 19 and 20 of the *Data Access Protocols 2012* - no fee applies.

3.2. **Level 2**

Applicants (other than those covered under Level 1 above) who request data from pre-defined data sets (mainly published *My School* data) – no fee applies.

3.3. **Level 3**

Applicants (other than those covered under Level 1 above) who request data that will require ACARA staff to extract the data and undertake quality assurance. Fees will apply under these circumstances, as ACARA's resources will be required to prepare the customised product. The cost recovery, therefore, relates to the provision of service preparing the data, not the data itself.

3.3.1. From **1 January 2014** ACARA will charge for the time taken to prepare each data request. This means that any data request applications received by ACARA after **31 December 2013** will be subject to this fee structure.

3.3.2. ACARA will assess the applicant's data request and estimate likely time required to complete the request and provide an indication of cost to the applicant based on labour time.

3.3.3. The fee will depend on the size and complexity of the request and the data extraction tasks involved. For instance, for extraction, the cost will depend on the number of data sets, number of years and variables in the data
extract. Other expenses will be charged where appropriate and justified. For example, a charge could be applied if specialised software or hardware had to be purchased to fulfil the request.

3.3.4. ACARA will commence work after the signed Memorandum of Understanding/Deed is returned to ACARA by the applicant and the payment is made.

3.3.4.1. ACARA will issue a Tax Invoice to the applicants.
3.3.4.2. ACARA will only prepare and provide the data as specified in the Agreement.
3.3.4.3. ACARA will re-supply the data if the product does not meet the specifications outlined in the Agreement.
3.3.4.4. If ACARA is unable to provide the data as specified in the Agreement, ACARA will refund the fee.
3.3.4.5. ACARA will not refund the fee after the data has been fully or partly prepared.

4. Lodging a data request application

4.1. All applicants are required to complete ACARA’s Data Request Application. The application is available at the end of these Policy & Guidelines or applicants can Download the Data Request Application Form.

4.2. Only complete applications that are submitted via datarequest@acara.edu.au will be accepted. Data requests that do not use ACARA’s Data Request Application will not be processed, nor will data requests that are sent to ACARA via fax or that are emailed directly to ACARA staff.

4.3. ACARA will confirm receipt of completed Data Request Applications within 3-5 working days.

4.4. It is essential that applicants fully complete all relevant questions/fields in the Data Request Application, as the information provided is used as the basis on which applications are approved or rejected.

4.5. All applications are required to provide a list of specific data items/variables being requested (see some examples below). This information is required not only for the assessment and determination process, but also for the preparation of data and the drafting of the Agreement (for approved applications).

4.6. If the Data Request Application does not have enough space to list all the data items being requested, applicants can provide additional documentation (such as an Excel spread sheet) as an attachment. This additional documentation needs to be submitted together with the completed application.
Example 1: School Profile

Calendar year (year the data is sourced from) 2011

Year_range Year 1 to 10

Data items/variables:
1. School_ID
2. School_name
3. School_suburb
4. School postcode
5. School_state NSW only
6. Total_enrolment Number

Example 2: NAPLAN Results – school level

Calendar year 2009 and 2011

Domains Reading, Writing and Numeracy

Data items/variables:
1. School_ID
2. School_name
3. Year level 3,5,7 and 9
4. Mean score

5. Submission closing dates

5.1. Applicants can submit data requests at any time. However, submission received less than five (5) working days before a Panel meeting will be considered at the subsequent Panel meeting. This cut-off is necessary to allow Panel members to review applications prior to the meeting.

6. Changes made to non-approved applications

6.1. Applicants can amend their original data requests by submitting an amended application at any time.

6.2. However, it should be noted that any amended application will be treated as a new application, regardless of the date of the original application submitted or received by ACARA.

7. Assessment and approval process

Assessment criteria

7.1. All data request applications will be considered by ACARA in accordance with the Data Access Protocols 2012. In general requests for data will be considered by the ACARA Data Request Panel, with requests for unpublished data passed to the ACARA Research and Data Committee for decision. Some of the following common criteria could be used to determine whether the requested data will or will not be granted.
<table>
<thead>
<tr>
<th>Common Criteria</th>
<th>Explanatory Notes</th>
</tr>
</thead>
</table>
| 1. The content of the application | 1.1. The application must include a list of the requested data items/variables.  
1.2. The application must provide sufficient information about the intended use of the requested data.  
1.3. The application must sufficiently address how the proposed project/research will benefit students, schools and the wider Australian community. |
| 2. Data availability            | 2.1. ACARA can only provide data it holds.  
2.2. ACARA cannot provide My School data to third parties, under the Data Access Protocols 2012, until six-months after the publication of My School. |
| 3. Technical feasibility       | ACARA may not have the specialised skills or programs required to prepare the data requested.                                                      |
| 4. The resources needed to provide the data being requested | 4.1. A complex request may require intensive resources to complete which would divert resources from other work priorities.  
4.2. ACARA may not have available resources to meet the applicant’s required deadline. |
| 5. Potential ethical implications | 5.1. Approval for the research project has been granted by the relevant institutional ethics committee. This applies only to requests for unpublished data. It should be noted that while the Ethics Committee can determine the ethical acceptability of the applicants’ research proposal, the authority to approve or not approve the data request lies with ACARA.  
5.2. A consideration of the possible outcomes of the research/project, resulting from the use of the requested data.  
5.3. With regard to unpublished data, consideration will be given to what proposed steps/methodologies will be taken by the applicant to ensure compliance with privacy legislation and the statutory guidelines in relation to the intended use of the requested data. |
| 6. Form of publication          | A consideration of whether or not the requested data would be potentially published in an aggregated/de-identified form in the final product. |
| 7. The applicant’s historical record (if available) | ACARA will consider the adherence to any previous data Agreement. |
Incomplete applications

7.2. As part of the 1st common criterion, incomplete applications and/or any applications that do not provide a clear list of data items/variables being requested will not be processed or only approved with a condition that the applicants must provide additional information as requested by ACARA.

7.3. In this case, any applicants who do not respond to a request from ACARA for further information within two weeks will receive an email advising that ACARA assumes the application has been withdrawn.

Successful applications

7.4. If the application has been approved, ACARA will inform the applicant (via email) of the outcome shortly after the final decision has been made. Applicants will be advised of what data will or will not be provided; any variation (if any) to the applications; the total cost (if any); and (where possible) the proposed timing and mechanism for data transmission.

7.5. Successful applicants can withdraw their application if they do not accept the terms and conditions set by ACARA as outlined in the Agreement. In this case, if any payment has been partially or fully made to ACARA, applicants can request a refund in accordance with ACARA’s data pricing policy (being developed).

Unsuccessful applications

7.6. If an application is unsuccessful, ACARA will inform the applicant (via email) of the reason(s) shortly after the final decision made. While the decision of ACARA is final and no appeal will be entered into, an applicant can revise their application and re-submit it to ACARA at any time. These applications will be treated as new applications.

8. Timelines for assessment

8.1. Once the complete applications have been received by ACARA, it will generally take between 4-8 weeks for the Panel/Committee to assess and advise applicants of the outcomes of their applications. In some circumstances (large volume of data requests; insufficient information provided by applicants, etc) this timeline may extend beyond 8 weeks.

9. Data access agreement

9.1. All successful applicants, with the exception of some applicants who currently have special arrangements with ACARA, are required to enter into a formal agreement with ACARA to receive the data.

9.2. The Agreement will take the form of a Memorandum of Understanding (MoU) for Government agencies and a Deed for non-government agencies.
9.3. The requested data will not be prepared until this Agreement has been signed by the applicants and returned to ACARA within a required timeframe.

9.4. All potential applicants are advised to read the draft Agreement templates before lodging a data request application. These documents are attached at Appendix B.

9.5. The Agreement describes (amongst other matters) the data to be delivered, the use of the data, the fees involved in data preparation (where applicable), the responsibilities of authorised users in working with the data, and the recourse available to ACARA should the Agreement be breached.

9.6. ACARA will send two copies of the final Agreement to a successful applicant for signature. The applicant will have 3-4 weeks from the date the Agreement is sent to respond. If the applicant does not respond within this time, the applicant will receive notice by email stating that their application has been closed.

9.7. Applicants are required to advise ACARA of any changes regarding their personal contact details, including contact details of personnel signing the Agreement, before the Agreement has been signed by ACARA. Any subsequent amendments to contact details will significantly delay the process.

9.8. Once the Agreement has been signed, the applicant should keep one copy of the Agreement and send the other signed copy to ACARA at the following address:

   Data Access Request Program  
   Australian Curriculum, Assessment and Reporting Authority  
   Level 10, 255 Pitt Street SYDNEY NSW 2000

10. Conditions of changes made to the approved applications

10.1. Before the Agreement is prepared and signed by ACARA, an applicant can request ACARA to reduce the number of data items or data sets as outlined in their approved applications. Such amendments will not require a submission of revised application.

10.2. A revised application will be required if an applicant requests a new data item or data set be added to the approved application.

10.3. Similarly, any change made to the intended use of the data and/or research questions or any other parts of the approved application will require a submission of a revised application.

10.4. A revised application will be treated as a new application and will be subject to the normal evaluation procedures, regardless of the date of the original application submitted or received by ACARA.

11. Preparation and delivery of the requested data

11.1. When ACARA receives the executed Agreement from the applicant, and all requirements are satisfied, ACARA will begin to prepare the agreed data.
11.2. ACARA will release the requested data through a secure FTP (*File Transfer Protocol*) site. Authorised users will be provided with a password via phone/email, and some general instructions on how to access the data. Authorised users are those listed in the signed Agreement.

11.3. Should Authorised users have any queries regarding the data provided they should contact ACARA within 2-3 weeks from the date of the data being provided.

11.4. The period of data retention will be described in the Agreement. ACARA will maintain the provided data for this period of time on the FTP site. Authorised users will be able to access these data during that period as long as the privacy provisions are met.

11.5. Authorised users are responsible for ensuring the data are stored securely and used according to the Agreement signed with ACARA.

12. **Timelines for release of the approved data**

12.1. The timeframe for delivery of the approved data will be considered on case by case basis. This will be subject to a range of factors such as scope/nature of the requested data, the finalisation of the Agreement, availability of data, number of applicants awaiting data, available staff resources (Data Analysts), and other factors. A significant delay in preparing the approved data requests is also expected during ACARA’s peak period (September-April) – around the launch of *My School*.
